

## **TERMS AND CONDITIONS – EPSON ROBOT CONTEST**

### The Prize

1. Participants will have the opportunity to win up to 3 Epson T series robots to support the implementation of the winning application.
2. Epson reserves the right to amend the type of robot to be awarded.
3. All robots won through the competition will remain property of the participating institutions that submitted the application once the competition is finalized, with the intention of it becoming a teaching or research tool within the university or institution.
4. The prize is not to be used for-profit following the finalization of the project for which it was won.
5. The prize is not for military usage.
6. The Prize is non-transferable and there is no cash or credit alternative in whole or in part.

### How to participate

7. The competition is only open to Universities, Tertiary education facilities and research institutes (hereafter known as participating institutions) in the EMEA region.
8. Applications must be made in the name of the University, Tertiary education facility or Research Institution and not individuals.
9. Participating institutions can enter multiple applications, however a maximum of one winning project per institution will be selected.
10. All applications must be submitted by midnight on the 15th December 2018. The winners and runners-up will be announced by email and online (website, social media, press release) on 15<sup>th</sup> January 2019.
11. The winners and runners up will be decided by a panel of judges, based on criteria including:
  - a. Innovation: is the application using the robot in a new and innovative manner or to achieve a new or innovative end goal?
  - b. Education: does the application present a learning opportunity that would otherwise be inaccessible without the robot?
  - c. Skills development: does the application support skills development in the field of automation
  - d. Unique robot usage: does the application use the robot in a new way or to automate tasks other than those seen by the majority or market applications?
  - e. Sustainability: does the application use automation to reduce waste or energy consumption? Has the sustainability of the project or end goal been addressed in the application?
12. People employed by Epson, and its subsidiaries, or by Epson official partners (including distributors, integrators and suppliers) cannot enter the competition.
13. Epson will publish the name of the winner in PR, marketing and social media. By entering the competition you agree to this.

14. Installation by an authorised Epson integrator or distribution partner is not required, however 'additional costs associated with the robot and the automation process must be covered by the winners themselves'
15. Epson commits to covering any taxes, freight and first training (one training, in situ or in Epson offices, location, participants and duration to be determined following the attribution of the winners) associated with the robot and the planning hereof.

Use of personal data

16. You hereby consent to the publication and use of your name for purposes of announcing the winner of this prize draw.
17. Personal data captured during the course of The Prize draw will be processed in accordance with the General Data Protection Regulations and the Promoter's privacy policy. You will be able at any time to require the Promoter to modify, update, clarify or remove this personal data by writing to the Promoter's address.

Intellectual property rights

18. The Participant assures Epson that the submitted applications will not infringe the personal rights, copyrights or rights, trademark rights as well as rights of a third person or organization.
19. Each Participant grants Epson the non-exclusive rights of use for the winner and runners-up application title for communication relating to this contest (e.g. press release, social media, websites, etc.). The organizer undertakes to state the institution name and/or other names as stated in the application as the authors of the competition entry in the usual manner for each publication.
20. Each participating institution agrees to work with Epson to develop case studies and other promotional material relating to their winning application, to allow for the promotion of such content without infringing on any IP rights of the institution relating to a new or innovative application.
21. The granting of further rights of use requires the separate consent of the participating institution.

Other conditions

22. Promoter will reject any claims received after the closing date and time and those which it reasonably considers to be incomplete, illegible or fraudulent.
23. These terms and conditions are governed by the laws of the Netherlands and shall come under the jurisdiction of the Dutch courts. (to apply to all EMEA)
24. By entering this Competition, you confirm that you have read, understood and accept the Promoter's terms & conditions. The Promoter reserves the right to cancel or amend these terms and conditions without notice in the event of any circumstances beyond its reasonable control.
25. You are solely responsible for reporting and accounting for any taxes applicable under relevant laws for any winnings received from Epson.
26. The Promoter is Epson Europe B.V., Hoogoorddreef 5, 1101BA Amsterdam Zuid, The Netherlands.
27. Should you have any questions about the terms and condition or about the competition, please contact [bruno.rost@epson.eu](mailto:bruno.rost@epson.eu).
